SIGNATURE OF PATIENT/PARENT/LEGAL GUARDIAN \_\_\_\_\_ Date (D/M/Y): \_\_\_\_\_

**B. Information to be Completed by Prescribing Physician**

Drug Name: \_\_\_\_\_ Strength: \_\_\_\_\_ Dose: \_\_\_\_\_

Humira® will be eligible for reimbursement only if the patient satisfies one of the criteria listed below and if the patient does not qualify for coverage under any other drug plan or government mandated program. If the patient is covered under another drug plan or government mandated program, the prior authorization program, as part of your drug benefits, may cover the portion not paid for by the primary plan. However, if "none of the above criteria" is indicated, the patient will not be eligible for reimbursement.

Please indicate if the patient satisfies one of the following criteria:

- For reducing the signs and symptoms, inducing major clinical response and clinical remission, inhibiting the progression of structural damage, and improving physical function in adult patients with moderately to severely active rheumatoid arthritis (RA) who have had an inadequate response to one or more disease-modifying anti-rheumatic drugs (DMARDs).
- For reducing signs and symptoms in patients with active ankylosing spondylitis who have had an inadequate response to conventional therapy.
- For reducing the signs and symptoms of active arthritis and inhibiting the progression of structural damage and improving the physical function in adult psoriatic arthritis patients.
- For reducing signs and symptoms and inducing and maintaining clinical remission in adult patients with moderately to severely active Crohn's disease who have had an inadequate response to conventional therapy, including corticosteroids and/or immunosuppressants. For reducing signs and symptoms and inducing clinical remission in these patients if they have also lost response to or are intolerant to infliximab.
- For treatment of adult patients with chronic moderate to severe psoriasis who are candidates for systemic therapy. For patients with chronic moderate plaque psoriasis, Humira® should be used after phototherapy has been shown to be ineffective or inappropriate.

OR

- None of the above criteria applies.
